## **EMBARGO POLICY**

Accepted abstracts are embargoed until 5:00 PM Eastern Time on Thursday, April 28, 2022. This means that information regarding any abstract submission may not be released before this time. Failure to honor embargo policies will result in the abstract being withdrawn and barred from presentation.

## **DISCLAIMER**

The abstracts in this supplement to *Heart Rhythm* are reprinted as submitted by the authors, without editorial review.

## MISSION AND VISION STATEMENTS

The Heart Rhythm Society (HRS) is a leading resource on cardiac pacing and electrophysiology. Our specialty organization represents medical, allied health, and science professionals from more than 90 countries who specialize in cardiac rhythm disorders.

**Mission:** to improve the care of patients by promoting research, education, and optimal health care policies and standards. **Vision:** to end death and suffering due to heart rhythm disorders.

## HEART RHYTHM 2022 PROGRAM OVERVIEW AND LEARNING OBJECTIVES

The sessions described in this program are organized by the Heart Rhythm Program Committee and comprised of world-renowned faculty who have been invited to speak at the Heart Rhythm Annual Meeting.

### LEARNING OBJECTIVES

After attending Heart Rhythm 2022 (whether as an on-site attendee or a virtual attendee), the learner should be able to:

1. Identify and analyze the latest scientific advances and innovations in the field of heart rhythm disorders.
2. Select appropriate, evidence-directed pharmacological and non-pharmacological therapies to achieve optimal outcomes for patients with heart rhythm disorders.
3. Recognize alternative perspectives regarding areas of controversy for which scientific evidence is insufficient, controversial, inconclusive, or confusing.
4. Utilize quality improvement measures, methods, and tools to foster systems-based improvements in heart rhythm care, outcomes, and value.
5. Analyze and improve processes related to inter-professional teams, care coordination, patient engagement, and communication to optimize the delivery of patient- and family-centered care.
6. Assess the impact of regulatory and institutional policies, and societal and cultural norms, on safety, timeliness, equity (including diversity and inclusion), effectiveness, efficiency, patient-centered care, and value.
7. Utilize improved communication methods to engage with patients and caregivers for increased shared decision making in the treatment of heart rhythm disorders.
8. Evaluate the latest technology available for both professionals and consumers in the field of heart rhythm disorders.
9. Recognize disparities in health care and describe strategies to reduce these disparities in patient care.
10. Utilize shared decision-making resources in discussing monitoring and treatment of patients with heart rhythm disorders.
11. Describe the latest cardiac device advisories and/or recalls and explain how to share the information with patients and caregivers.
12. Explain the current and future trends in digital health that will impact the treatment of heart rhythm disorders.
13. Describe best practices for managing a device clinic, an AF center, and/or a multidisciplinary electrophysiology practice.

### ABSTRACT SESSIONS OVERVIEW

All Heart Rhythm 2022 accepted abstracts are under media embargo until 5:00 PM Eastern Time on Thursday, April 28, 2022. The Heart Rhythm Society reserves the right to alter embargo times at its discretion. For more information about media embargos or for press inquiries, please contact the HRS press office at 571-216-6710 or [media@hrsonline.org](mailto:media@hrsonline.org).

### ORAL ABSTRACT SESSIONS

Up to four abstracts are presented within each Abstract Session. Each presenter will have 15 minutes to include a 10-minute presentation and five minutes of Q & A at the end of their presentation.

Please note the numbering format, example: **BS-512-01**

- **BS** represents an oral abstract's track:
  - AP: Allied Professionals
  - BS: Basic/Translational Science
  - CA: Catheter Ablation
  - CE: Clinical EP
  - CI: Cardiovascular Implantable Electronic Devices
  - DH: Digital Health and Innovation
  - EN: Events and Networking
  - HF: Heart Failure
  - HP: Health Policy
  - PC: Provocative Cases
  - PE: Pediatrics/Adult Congenital Heart Disease
  - QI: Practice Management/Quality Improvement
- The first number **512** represents the oral abstract session number
- The next number **01** indicates the order in which the abstract will be presented

### POSTER SESSIONS

The abstracts selected for poster presentations are digitally displayed within the Abstract Pavilion. Presenters will be stationed at their posters for a scheduled timeframe during the meeting. Posters will be grouped by subject. Hours are listed below.

Please note the poster numbering format, example: **PO-614-01**

- **PO** represents a poster presentation
- **614** represents the session number
- **01** represents the order of the presentation in the session
